

Hala Mohammad Bani Hamad

NETWORKING ENGINEER

Irbid, Jordan | +962 7 8150 9970 | halabanihamad10@gmail.com

Objective

To obtain a good position in Networking and Security, where I can apply my technical skills to contribute effectively. With a strong background in networking, security, and IoT, I am eager to contribute my expertise to drive innovation, implement robust Cybersecurity measures, and make a meaningful impact within a collaborative and forward-thinking work environment.

Education

High School, 2019

GPA of 96.2

Jordan university of science and technology (Just University), 2024

Network Engineering and Security

GPA "Very Good"

Professional and Academic Projects

JUST university | Graduation project

Worked for eight months on Graduation project, focusing on developing a professional application aimed at enhancing network performance. The project involved determining the optimal locations for access points, contributing to an effective and optimized network infrastructure.

JUST university | Research paper

I am currently collaborating with my graduation project supervisor, and my project partner on a research paper in the field of wireless networks. Our focus is on enhancing the performance of algorithm which we used in the graduation project and sharing our findings with the broader research community to contribute to advancements in the field.

JUST university | IoT Project

Completed Cisco IoT course at JUST. Developed a Telegram bot for ESP32-CAM enabling remote board control, photo requests, buzzer activation, and flash control. Integrated motion detection for notifications and utilized ESP32 as a surveillance camera.

JUST university | Employing Students

Worked for three months in JUST library in organized and arranged books in the library to enhance accessibility for students.

Certifications

CCNA: Cisco Certified Network Associate
Self-study course with practice on GNS3/Packet Tracer Tools.

Technical Skills

Programming languages: C ,C++ and python.

Web development: Flutter, HTML, CSS and JavaScript.

Operating systems: Windows, Linux.

Software: Teams, Zoom, Excel and Word.

Abilities

Management: served as team leader in graduation project and research, Skilled in organizational leadership optimizing workflows.

Problem Solving: adaptability to find effective solutions and contributing to project success through innovative approaches.

Communication: adaptability at building connections and creating a friendly, inclusive environment that supports effective communication and teamwork.

Languages

Arabic: mother tongue.

english: Good.
